1. About Apotti Sandbox

The purpose of Apotti Sandbox is to provide an environment for 3rd parties to develop and test their applications against Apotti integration interfaces.

2. Requirements to Using Apotti Sandbox

- Apotti has accepted the 3rd party as an ecosystem partner
- The 3rd party has successfully applied ClientID from Epic with proper resource privileges
- Apotti has downloaded the ClientId into Apotti sandbox
- The 3rd party has successfully applied professional user ids and/or patient ids to launch their applications

3. Using the Sandbox
4. 3rd Party Application's path from an idea forward
5. Ending Using the Sandbox
6. Resources

6.1. Apotti Contacts

- jari.renko@apotti.fi
- Ilkka.tiainen@apotti.fi

6.2. Epic FHIR Interfaces

- fhir.epic.com
    - The current Epic supported FHIR resources
    - ClientID application

6.3. Finnish FHIR Interface Profiles

- fhir.fi
